## ***NYSI Information Sheet***

### Departure

The bus will pull out of the museum at 4pm. Please come about 15 minutes early so that we can leave on time. Please note the number on your bus and return to the same bus for the trip back. When you arrive back at the bus, please check your name off on the clipboard. The buses will be locked if you want to leave your belongings on the bus.

### Lunch

We have reserved the cafeteria for 1pm. You can leave your lunch bags in the cafeteria refrigerators.

### Exhibits

The tickets provided for you include everything on the first floor. The following exhibits can be purchased separately. On the bus, we will take cash/check if you wish to reserve a place for the first two exhibits. If you decide to go with the group, we can not guarantee that you will be able to make a certain movie.

#### ***1. Connected Worlds - \$4 per person (must go with group)***

Presented in the iconic [Great Hall](#), *Connected Worlds* immerses visitors in a fantastically animated world where your actions – gestures, movements, and decisions – impact how well the world is kept in balance.

There are six environments in *Connected Worlds*: jungle, desert, wetlands, mountain valley, reservoir, and plains. Each has its own trees, plants, and animals, but they share a common supply of water. The environments are fed by a central waterfall that is projected 38-ft high in the exhibitions and flows out across an interactive floor that spans 2,300 square feet. While interacting with *Connected Worlds*, visitors explore the interconnectedness of different environments, strategize to keep systems in balance and experience how individual and collective actions can have widespread impact.

As visitors explore and play, their actions – gestures, movements, decisions – have both short and long-term effects on the digital environments. These effects are based on core concepts of sustainability science including feedback loops, equilibrium in a dynamic environment, and casual links and influences.

#### ***2. Above and Beyond - \$3 per person with group – (\$4 per person individually)***

NYSI's summer exhibition uses flight simulation, augmented reality, touch tables, design and skill challenges, augmented reality and more to immerse visitors in the wonders of flight, space travel and aerospace innovation, design and technology. *Above and Beyond* is presented by [Boeing](#) and produced by [Evergreen Exhibitions](#) in collaboration with NASA and the Smithsonian's National Air and Space Museum.

#### ***3. Science Playground - \$5 per person (book separately)***

Through dozens of playground elements like slides, seesaws, sand pits, and fog machines, visitors of all ages and abilities can explore the scientific principles of motion, balance, sound, sight and simple machines, as well as sun, wind, and water.

#### ***4. Movies - \$6 for adult and \$5 for children (book separately)***

##### **Superpower Dogs 3D (45 minutes) – 11am & 1pm**

Join an immersive 3D adventure to experience the life-saving superpowers and extraordinary bravery of some of the world's most amazing dogs. Journey around the globe to meet remarkable dogs who save lives and discover the powerful bond they share with their human partners.

##### **Apollo 11 (22 minutes) – 3pm**

*Apollo 11: First Steps Edition* is a thrilling 2D cinematic experience showcasing the real-life moments of the first lunar landing. With never-before-seen footage and a trove of newly discovered audio recordings, the filmmakers reconstruct the exhilarating final moments of preparation, liftoff, landing and return of this historic mission.

##### **Backyard 3D (22 minutes) – Noon and 2pm**

Spanning a seasonal year around a suburban home, the film displays a stunning array of unique wildlife images and behavior – all captured by cameras mounted inside dens and nests, and moving along the forest floor and pond bottom
